#### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A military installation is located adjacent to the northeastern edge of Smolyaninovo (Figure 1). It includes Smolyaninovo Army Barracks at 43-18N 132-27E, and Smolyaninovo HQ 40th Motorized Rifle Division at 43-17N 132-27E.

The installation covers approximately 1,350 acres and contains 8 administration buildings, 18 barracks, 155 quarters-type housing units, 34 storage buildings, 4 probable explosives storage buildings, 3 bunkers, 4 vehicle sheds, 3 motor parks, and 96 support buildings. Training facilities include 1 wheeled-vehicle driver-training course, 2 tracked-vehicle driver-training circuits, 1 tank/assault-gun firing range, 1

suspect tank/assault-gun firing range in an early stage of construction, and 2 unidentified facilities (Figures 2 and 3).

The installation is covered on KEYHOLE missions of interpretable quality between Comparative analysis reveals that all the buildings were constructed prior to The driver-training course was constructed between and the suspect tank/assault-gun firing range was first observed in Driver-training circuit M2 was active during a period of snow cover in The overall level of activity at the installation increased from light in to medium by

DESCRIPTION OF INSTALLATION

Railroad Service

A possible off-loading area is located on a rail spur 0.5 kilometers (km) west of the installation.

Road Service

Secondary, probably all-weather roads connect the installation with Smolyaninovo. A tank trail connects the installation with tank/assault-gun firing range N2.

Administration and Troop Housing Areas

Area D1 contains 1 administration building, 2 barracks, 2 storage buildings, 1 vehicle shed, and 17 support buildings.

Area D2 contains 1 administration building and approximately 95 quarters-type housing units.

Area D3 contains 2 administration buildings and 10 support buildings.

Area D4 contains 4 administration buildings, 16 barracks, and 14 support buildings.

Area D5 contains 60 quarters-type housing units.

General Storage Areas

Area E1 contains 4 storage buildings and 3 support buildings.

Area E2 contains 8 storage buildings and 8 support buildings.

Area E3, probably secured by a fence, contains 4 storage buildings and 1 support building.

Area E4 contains 7 storage buildings and 9 support buildings.

Ammunition Storage Areas

Area F1, probably fenced, contains 3 bunkers, 9 storage buildings, and 1 support building.

Area F2, probably fenced, contains 4 probable explosives storage buildings.

Other Buildings

Thirty support buildings are dispersed throughout the installation.

Equipment Storage/Maintenance Areas

Area J1 contains a motor park/open storage area, approximately 580 by 140 feet.

25X1D

Area J2 contains 1 vehicle shed, approximately 350 by 50 feet, 1 motor park, approximately 470 by 250 feet, and 3 support buildings.

Area J3 contains 2 vehicle sheds, each approximately 230 by 30 feet, and 1 motor park, approximately 230 by 175 feet.

#### Athletic Fields

Area K1 contains an athletic track.

Area K2 contains a soccer field.

#### Driver-Training Areas

Area M1 contains a wheeled-vehicle driver-training course with 2 loop circuits and a figure-8. The course was constructed between

Track activity has remained light.

Area M2 contains a tracked-vehicle driver-training circuit constructed prior to Winter training was observed during a period of snow cover in

Area M3 contains a tracked-vehicle driver-training circuit constructed prior to Activity at M2 and M3 increased from light in

#### Tank/Assault-Gun Firing Ranges

Area N1 contains a suspect tank/assault-gun firing range site and was first observed on coverage. The area appears to be in an early stage of construction.

Area N2 contains a 3,750-foot tank/assault-gun firing range with one 2,300-foot lane and 3 moving target runs. The range (first observed on coverage and not shown on sketch) is 10 km southeast of the installation. Activity increased from light in to medium

#### Unidentified Facilities or Tracking Activity

Area T1 contains an unidentified facility constructed prior to

Area T2 contains a facility which appeared to be a subcaliber range on coverage. However, it cannot be identified as a subcaliber range on later coverage.
